

Avatar Competition

The Northumberland ICT and E-Learning Team are launching our first School360 Avatar design competition for pupils across Northumberland.

A winner will be selected from each category (EYFS, KS1, KS2 and KS3). Each winner will have their design developed within the platform and can choose a £50 book voucher or iTunes voucher for their school!

There are 2 parts to the competition:

- Use the attached template to design an avatar outfit, remember to include accessories and a hair style. You can add labels and notes to your design if you would like to.
- School360 are getting ready to introduce avatar PETS! We would like you to design a pet that you would like to see in the platform. Use your imagination and lots of colour!

Teacher Notes

The attached templates are also available to download from the ngfl website. You may choose to print and use whatever materials you would like your pupils to work with. Alternatively, you could share the templates digitally and allow your children to use a package like JIT (available in School360) to create their designs. To do this, save the template to your PC. Go to School360 / Tools /J2E / my files and drag the file into the drop box. Click on the green info button and select 'share'. Scroll through the menu to find your class. Pupils will then be able to open JIT and select the template from their bank of shared images.

Please ensure that your designs reach us by 23rd October. Send to:
