# Interested in Computer Coding?

Can you inspire kids aged 9-11?

Northumberland Code Club is recruiting

Come along and find out more about these fun and rewarding volunteering opportunities at one of our informal sessions. A friendly welcome and refreshments will be provided:
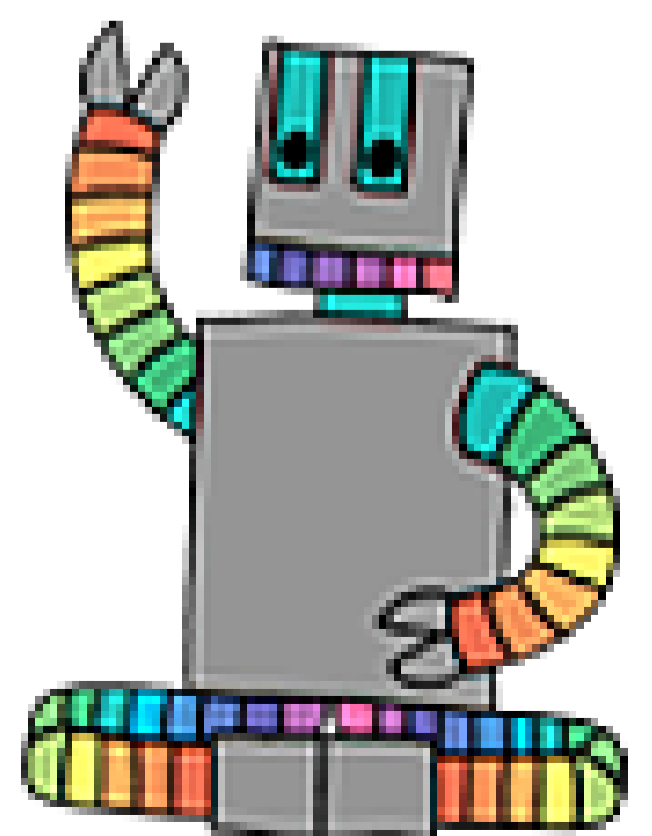

Thursday 10th March 6pm - 7.30pm, Cramlington Library
Friday 11th March 6pm - 7.30pm, Hexham Library
Tuesday 15th March 6pm - 7.30pm, Morpeth Library
Thursday 17th March 6pm - 7.30pm, Bari Tea, Alnwick

Register to attend a session via EventBrite - search
'Code Club Northumberland'
or contact nathan.fuller@northumberland.gov.uk
01670 620185

What is Code Club?

Code Club is a nationwide network of volunteer-led after-school coding clubs for children aged 9-11
www.codeclub.org.uk

{code club}

What do kids learn?

Code Club provide step-by-step activity sheets for the children to follow so they can create games, animations and websites, learning the key concepts of programming at the same time.

Code Club resources teach children Scratch, HTML/CSS and Python.

Volunteering

Anyone can run a Code Club - teachers, parents or volunteers. Free training and resources are offered by Code Club.

Clubs are extra-curricular and can run after-school, or in the evenings/weekends.

Supporting a Code Club is a fun, rewarding and exciting role - inspiring the programmers of tomorrow.
